Post-Doctoral Position in Computer Vision and Machine Learning Boston University

A university-funded post-doc position is available in the Image and Video Computing Research Group, in the Department of Computer Science at Boston University. The successful candidate will have a research track record in formulating machine learning algorithms and building computer vision systems for: (1) gesture analysis, recognition and retrieval, e.g., for sign language, and/or (2) video-based analysis of human motion, activity and communication, and/or (3) indexing and mining of very large video data sets. The position is funded for up to three years, and renewable annually based on performance.

To apply, please send a CV, research statement, three relevant peer-reviewed publications, and the names of two references to Stan Sclaroff (sclaroff@cs.bu.edu).
