EDeAN

European Design for All
e-Accessibility Network

Networking towards an inclusive Information Society

EDeAN is a network of over 160 organisations in European Union member states.

The goal of the network is to support all citizens' access to the Information Society.

Networking towards an inclusive Information Society

EDeAN provides:

- a European forum for Design for All issues, supporting EU's eInclusion goals
- awareness raising in the public and private sectors
- online resources on Design for All including information on training

EDeAN National Contacts and Networks

National Contact Centres (NCCs) have been appointed in 23 European countries. They are working with Design for All, eAccessibility and Assistive Technology issues as contact points of the EDeAN Network. The cooperation is based on the EDeAN Charter.

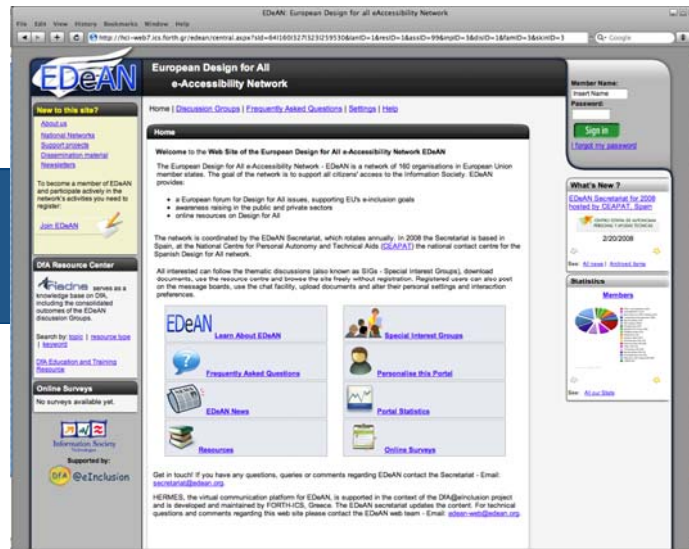

Each NCC cooperates with the EDeAN Secretariat, provides support and actively promotes Design for All among the members of its own country. Check the website to find out more about members in your country.

EDeAN Secretariat duties rotate annually. In 2008 the Secretariat is run by CEAPAT in Spain.

Benefit from networking - join EDeAN

Participation in EDeAN is free. It is based on the EDeAN Charter. New organisations are welcome to join.

To become involved in the network check www.edean.org/joinus.asp for more information or contact the Secretariat.

EDeAN website features

- thematic discussions - to share your expertise. Follow discussions of the special interest groups and add your input (registered members only).
- Resource Centre - when you need information. It offers a range of tools and information on DfA and eInclusion

Additionally the site offers an online chat facility, information on NCCs as well as links to all EDeAN member organisations.

The site can be accessed easily through a customisable web-based interface.

EDeAN Special Interest Groups

SIGs for knowledge exchange and discussions related to DfA and eAccessibility have so far established:

- Policy and Legislation
- Standardisation
- Best Practice in DfA Training
- Benchmarking
- Technological Development

To join discussions, check www.edean.org/joinus.asp.
