

ENVIRONMENTAL MANAGEMENT POLICY

The Center for eHealth Applications and Services (CeHA) acknowledges its duties and obligations to the environment and people through the implementation of the environmental management system in accordance with ISO 14001:2015. The Center is dedicated to:

- the continuous improvement of its environmental performance,
- compliance with environmental legislation
- the avoidance of pollution and
- compliance with all requirements arising from its licensing and operation.

The Center for eHealth Applications and Services (CeHA) identifies all environmental parameters related to its activities and develops procedures and programs with the aim of continuously improving its environmental performance. The environmental policy focuses on:

- Saving energy and resources by developing a system for monitoring the consumption of natural resources
- Management of waste generated, giving priority to their separate collection and recycling.
- Continuously informing senior management and staff on environmental issues

This environmental policy is published, communicated, implemented and supported by every employee at the Center for eHealth Applications and Services (CeHA).

Associate Director of Institute
